statement of reasons

Over time discrepancies have come to light between what is marked on the ground and what is detailed within the traffic regulation order. This order aims to resolve these discrepancies. Specific details of what is proposed at each location can be found attached to the relevant plan within the deposit documents.

The restrictions are proposed to avoiding danger to persons or other traffic using the road or for preventing the likelihood of any such danger arising, for facilitating the passage on the road or any other road of any class of traffic (including pedestrians) and to preserve/improving the amenities of the area through which the roads run.
