Statement of Reasons

It is proposed to provide on-street charging points for electric vehicles at any time. The bays will be for 24 hours with no maximum stay and the vehicle must be connected to the charging device. The proposal will provide recharging bays for those who have access to electric vehicles by providing a clean safe alternative to the conventional engine, reducing the negative environmental impact and improving air quality.

In addition, it is proposed to introduce a car club bay adjacent the electric vehicle recharging bays at Den Crescent, Teignmouth to provide sustainable mobility for all by offering access to a share vehicle to provide an alternative to car ownership.

Specifically, the order if made will preserve or improve the amenities of the area through which the roads run.
