statement of reasons

As part of the new housing development, it is proposed to introduce prohibition of motor vehicles along two sections of Southbrook Lane to reduce traffic flow through the development and provide a safe route for pedestrians and cyclists. It is also proposed to install street lighting along Southbrook Lane and therefore we propose to introduce restricted road status (30mph by virtue of street lighting).

For clarity this is a new consultation on proposals that were previously consulted upon in November 2021. The proposed traffic orders and consultation responses can no longer be considered due to the time that has elapsed.

The restrictions are proposed to avoid danger to persons or other traffic using the road or for preventing the likelihood of any such danger arising, for facilitating the passage on the road or any other road of any class of traffic (including pedestrians) and for preserving or improving the amenities of the area through which the road runs.”
