Statement of Reasons

It is proposed to introduce pay and display in key areas to manage congestion, improve air quality, and maintain reasonable access to premises. These restrictions are proposed so that availability of parking is improved for short stays. This could reduce congestion and improve air quality as well as providing a safer environment for pedestrians and cyclists.

Specifically, the restrictions are proposed to preserve or improve the amenities of the area which the road runs through, and serve the purposes specified in paragraphs (a) to (c) of subsection (1) of section 87 of the Environment Act 1995 (air quality), as laid out in section 1(1) of the Road Traffic Regulation Act 1984.

By designating paid parking places on the highway, free movement of traffic and reasonable access to premises is maintained, in line with section 45 of the Road Traffic Regulation Act 1984.
